

May 3, 2015 Connect Ed Message:

Good evening bulls, FSA math assessments begin this week with Algebra 2 starting to test tomorrow followed by Geometry beginning Friday, May 8<sup>th</sup> and Algebra 1 beginning Tuesday, May 12<sup>th</sup>.

The assessments take two days to complete, with one 90- minute session on day 1 followed by a second 90- minute session on day 2. We will have two groups of students testing daily.

One group will test at 7:25 AM and the second group will test at the beginning of 4<sup>th</sup> period.

Those students assigned to the later session will then go to 7<sup>th</sup> period lunch for the two testing days.

We do encourage those students assigned to the second test session to bring a snack to eat before the test session begins. Student testing dates and locations have been posted in Student Services and in the Cafeteria.

Math teachers will also be notifying students of test dates and test locations.

Please encourage your student to check their testing dates so that they get a good nights rest before the assessment and are prepared to arrive to their testing location on time.

Thank you and have a good evening.
