INDUSTRY**

HOSPITALITY INDUSTRY PROGRAM

■ OUR MISSION

The Hospitality Industry Program provides relevant and high quality curriculum which exposes students to the variety of aspects within the hospitality industry. Students will gain the knowledge, skills, and abilities to provide a positive customer-oriented experience through passion and dedication. Students will work to gain industry certifications while in the program.

■ ABOUT THE PROGRAM

The Hospitality Industry Program is a specialized learning community dedicated to helping students define their path for success while still in high school. Students learn about career opportunities in the Hospitality & Tourism industry, Culinary Arts Industry and attend fun field trips and events (most at no cost to the student). Skills such as public speaking, presenting, team problem solving, cooking techniques, catering events, entrepreneurship and innovation are emphasized in the program's classes. Students make resumes, learn interview skills, get personalized college application help, and have industry mentors (hospitality/business/tech). Our graduates say that the best part of the program, aside from the fun field trips, was that the academy really prepared them for college and their future careers
